

CD Weaving Workshop

Tuesday 3.5.2016

Participants weave yarn over old CDs. They can choose which ever colours and yarns they like. This is the third week of workshops. For some participants this is the last workshop they will attend, some will come on Friday this week for the last time. CDs will be combined into a big wall decoration, that will be hanged in the Day Care.

Please, try to interfere as little as possible to allow natural workshop flow for student teachers and participants. If you wish, you can try weaving.

Pay attention to:

- The techniques, materials, the product
 - Difficulty level
 - Suitability
- The infrastructure
 - Room, environment, equipment
 - The amount of staff and student teachers
 - The amount of participants
- The teaching methods & interaction
